UPCOMING ACTIVITIES

- **Excavation** will continue this week through the month of February.
- **Soil Nail Shoring** is being installed on the south and east sides of the basement excavation.

FUN FACTS

At the peak of the construction effort we will have approximately 200 workers contributing to the project.

View of BSRL construction site from the WEBCAM
Basement Excavation progressing well
Only 10 feet more to go!
Soil Nail Shoring will stabilize the soils around the excavation during the construction of the BSRL Basement.
