Beginning Monday, Dec. 19, 2011, the northern portion of the 6090 lot (shown below) will be closed due to construction of the North End Zone expansion. The southern half of the 6090 lot will remain available for parking during the construction period.

Parking and Transportation sold permits at the beginning of the fall semester knowing the construction area will close off a portion of the parking lot. Therefore, if you have purchased a permit for the 6090 lot, you will be guaranteed a space when you return in January 2012.

If you are planning to leave your vehicle over the holiday closure, please park your vehicle in the southern portion of the parking lot. Vehicles remaining in the northern portion will be cited and towed.

Thank you for your cooperation.
